

Roofing Slating & Tiling (Construction Specialist)

Campus

Construction Apprenticeship Training Centre

Duration

Two years

Attendance Model

Part-time – block release

What are the entry requirements?

Entrants are required to be aged 16+ and hold a position of employment within a construction roofing occupation.

What are the potential job roles for those working towards this qualification?

Working on a construction site or in commercial or domestic premises, applying slates or tiles to roofs on new builds or repairing older property roofs to given specifications.

What's it about?

Roofing occupations has a wide range of opportunities that apprentices can be involved with in a structured career path, such as new builds and refurbishments. You will learn how to prepare and construct slate and tile roofing solutions using a range of materials and equipment.

What qualifications will I gain in this apprenticeship?

- Level 2 NVQ Diploma in Roofing Occupations
- Level 2 Diploma in Roof Slating and Tiling
- L1 Functional Skills (Maths & English)

Opportunities available to learners who achieve this qualification include:

- Advanced (Level 3) Apprenticeship in Construction Specialist: Roofing Occupations.

Roofing Slating & Tiling (Construction Specialist)

After gaining work experience in the chosen occupational area there are also opportunities to progress into:

- Occupational work supervision
- Management or technical support areas.

What is involved?

NVQ - Learners will be working towards their NVQ knowledge units in their own time and during college attendance. Performance units will be assessed while apprentices are undertaking their normal duties under the supervision of a workplace mentor and a designated college assessor.

Diploma - Learners will be working towards their Diploma during block release to college. This will include a range of training units such as,

- Health, safety and welfare in construction and associated industries
- Understanding information, quantities and communication
- Understanding construction technology
- Install single-lap roof coverings to a variable gauge
- Install plain tile roof coverings
- Install regular sized natural roof slates
- Strip and reclaim pitched roof coverings
- Install roofing backgrounds and ancillary components
- Install pre-formed weathering flashings to roofs

L1 Functional Skills (Maths & English) - Only applicable to learners who either do not hold GCSE's (grade C or above) in these subjects or who have obtained their GCSE's more than five years ago.

What will I learn at college?

- Health and safety within a construction environment
- How to calculate quantities
- Construction technology
- Installation of roof tiles, slates and coverings
- Installation of a range of roofing components
